PROFESSIONAL SUMMARY

Results-driven Frontend Developer with 6 months of industry experience building responsive, high-performance web applications using React.js, Next.js, and TypeScript. Specializes in RESTful API integration, Tailwind CSS, and Agile team collaboration, with a proven track record of optimizing Core Web Vitals to 90+ Google Lighthouse scores.

SKILLS

Languages and Frameworks:	JavaScript (ES6+), TypeScript, React.js, Next.js, HTML5, CSS3
Styling and UI Design:	Tailwind CSS, SCSS, SASS, Responsive Web Design, Mobile-First, WCAG
State and Architecture:	React Hooks, Context API, RESTful APIs, Axios, Fetch API, JSON, Asynchronous JavaScript
Tools and Performance:	Git, GitHub, VS Code, Postman, npm, Google Lighthouse, Core Web Vitals, SEO
Soft Skills:	Problem Solving, Agile and Scrum Collaboration, Code Reviews, Communication

WORK EXPERIENCE

Trainee Web Developer

Feb 2026 – Present

Brisque | Madurai, Tamil Nadu, India

- Engineered responsive web interfaces across 15+ application views using React.js, Next.js, and TypeScript, ensuring cross-browser compatibility and 100% mobile-first fidelity.
- Integrated 10+ RESTful API endpoints with Axios and Fetch API, establishing error boundary handling and structured asynchronous client-server data flow.
- Developed 20+ modular, reusable React UI components with React Hooks and Context API, reducing code redundancy and accelerating delivery cycles by 25%.
- Implemented pixel-perfect styling across 25+ UI components using Tailwind CSS and SCSS, converting design specifications into accessible, high-performance web interfaces.
- Optimized page speed and Core Web Vitals using lazy loading, code-splitting, and asset minification, raising Google Lighthouse performance audit scores from 72 to 92+.

PROJECTS

Embedded Ordering Platform

React.js · Next.js · TypeScript · REST APIs · Tailwind CSS · Context API

- Architected a fully responsive embedded ordering platform supporting end-to-end catalog browsing for 50+ products, cart handling, and streamlined checkout workflows.
- Built client-side real-time filtering, multi-category sorting, and instant search, reducing drop-off rates and streamlining product discovery by 30%.
- Connected external RESTful APIs and validation services, implementing resilient error boundaries to guarantee transactional reliability across 100% of user sessions.
- Streamlined bundle size via Next.js dynamic imports, code splitting, and asset lazy loading, achieving a 28% reduction in initial load time.

Business & Static Websites

React.js · Next.js · TypeScript · HTML5 · CSS3, SCSS · Tailwind CSS

- Designed and deployed commercial business websites leveraging Next.js Static Site Generation and Server-Side Rendering for maximum speed and 99.9% uptime.
- Crafted fluid micro-interactions, scroll transitions, and accessible navigation systems using modern SCSS and Tailwind CSS to increase user session duration by 20%.
- Applied semantic HTML5 elements, Open Graph meta tags, structured data, and WCAG accessibility standards, elevating organic search ranking and SEO health.
- Constructed a reusable design system of 15+ UI components, expediting multi-page website rollouts by 30% while enforcing design consistency.

EDUCATION

Bachelor of Engineering in Computer Science and Engineering

Expected Graduation: 2026 | CGPA: 8.1 / 10

Kamaraj College of Engineering and Technology | Virudhunagar, Tamil Nadu, India
